

Redefining your office printer

Announcing the groundbreaking Xerox Phaser 8200 Color Printer.

Designed around our most innovative single-pass print technology to offer unprecedented performance for your office. Even the price tag is breakthrough. While the print speed alone is enough to turn your head, wait until you experience the incredible ease of use and the stunning image quality.

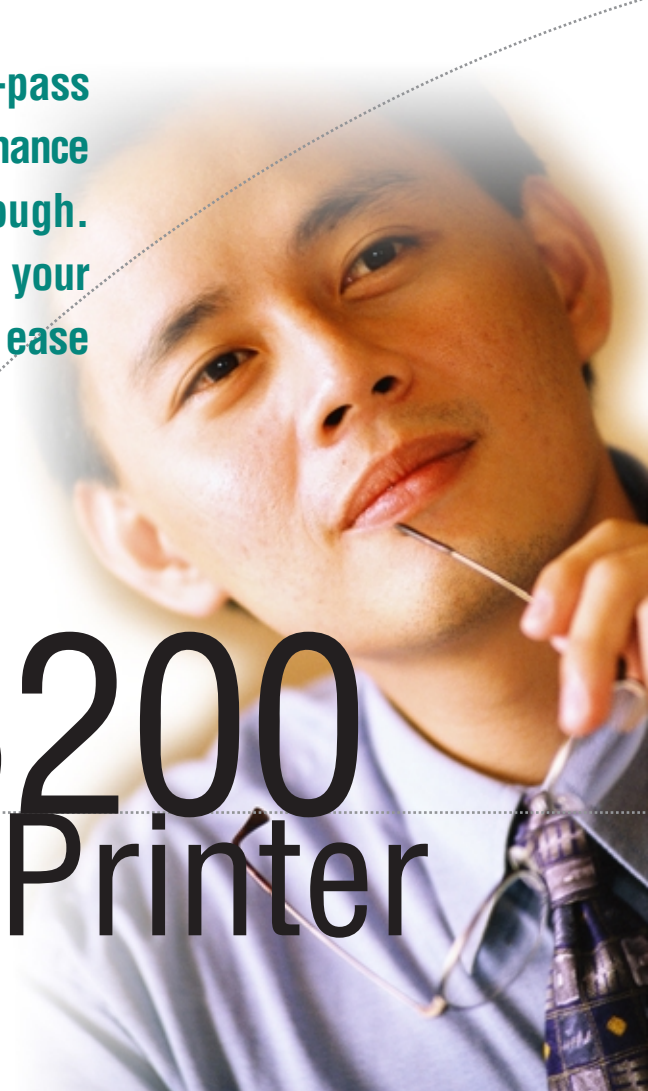

You'll never look back.

Phaser 8200 Color Printer

the best performer at the best value

The Phaser 8200 Color Printer delivers a powerful performance advantage. This means fast printing in real world use, no matter how complex your print job or your business. And, because of its economical price, any office can afford it.

- Full page color at up to 16 ppm means you're never kept waiting for even the largest jobs to print.
- 9 seconds to your first page. It's the fastest first-page-out speed of any color printer in its class.
- Built around a high-speed 300 MHz PowerPC processor, with up to 256 MB memory, true Adobe PostScript 3, and an available hard drive (10 GB minimum) for ultimate performance.
- Incredibly priced to give you the competitive edge of color for about the cost of a black-only network printer.

Phaser® 8200

Color Printer

brilliant color quality

The true beauty of this printer shines through in your output: text and detail are sharp and crisp, and the color is so incredibly brilliant, it will get you noticed in the flash of a page.

- Solid ink color is truer, more saturated and remarkably consistent, page after page, on virtually any media.
- Select the 1200 dpi Photo mode and see your scanned images and photographs come alive.
- Optimize color automatically with expert color matching technology that no other printer can match.

smart printing for great work

When you connect an 8200 to your network, you can take advantage of Xerox CentreWare software. It provides quick and convenient access to a wealth of features, including printer and job status, in depth accounting information, simplified printer installation and network administration.

Printer administrators will benefit from CentreWare IS Embedded Web Server to manage printers from anywhere using a web browser.

Secure printing lets you hold a confidential job at the printer until you are ready to pick it up.

The 8200 stays in touch with system administrators by sending **Email Alerts**. It can even be set up to send a message to your reseller when ink supplies get low.

Instant pop-up messages appear on your monitor if printing problems arise, thanks to **PrintingScout**.

The smart 8200 can even troubleshoot on its own. It has **PhaserSMART**, a unique automated internet-based support system.

easy to use and reliable

The most advanced color printer ever is also the easiest to use. In your day to day printing you will appreciate the simplicity and ruggedness of the Phaser 8200. Superior design and smart features make it simple, more reliable and less expensive to operate.

- Just drop a solid ink stick into the shape-coded slot at any time, even while printing. The 8200 is as easy to load as a stapler. No more fumbling with messy toner.
- Best for the environment *and* your budget, because efficient solid ink is environmentally friendly and virtually waste-free.
- Self-monitoring, so it's ready to print when you are and in energy-saving mode when you're not.
- Out of the box and on your network in minutes with extraordinarily streamlined installation.
- Proven reliability is backed by a 1-year on-site warranty and the unmatched Xerox Total Satisfaction Guarantee.

flexible paper handling

What could be better than gorgeous color pages that set you apart from the competition? How about the same gorgeous color on transparencies, business cards and labels? Thanks to the simple paper path, you can feed an amazing range of media through the 8200.

Use the manual feed for heavy paper up to 80 lb cover and 110 lb index (216 gsm), business cards and envelopes.

Two-sided printing (duplex) option is automatic and fast.

The 200-sheet paper tray feeds 16 - 40 lb. bond (60 - 150 gsm) and up to 60 lb (160 gsm) heavy paper/cover stock.

Add one or two 500-sheet high-capacity paper feeders to boost your capacity to 1200 sheets.
