

# Conference and Workshop Speaker Timer

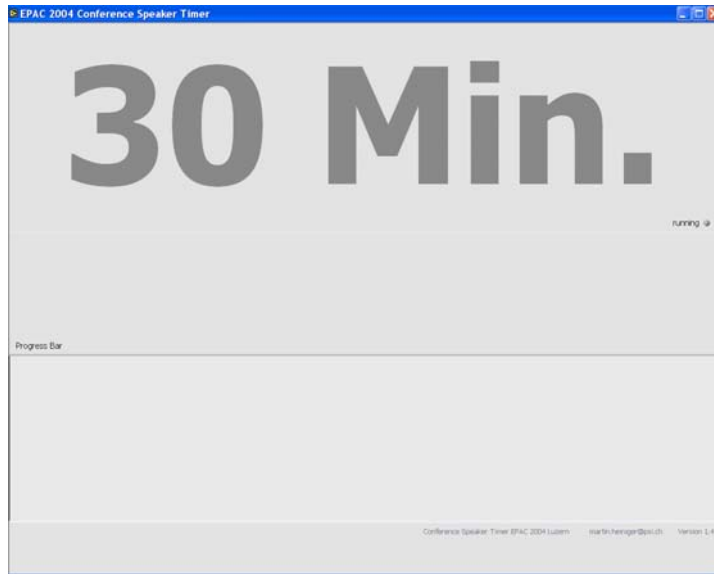

## Important Information for Speaker

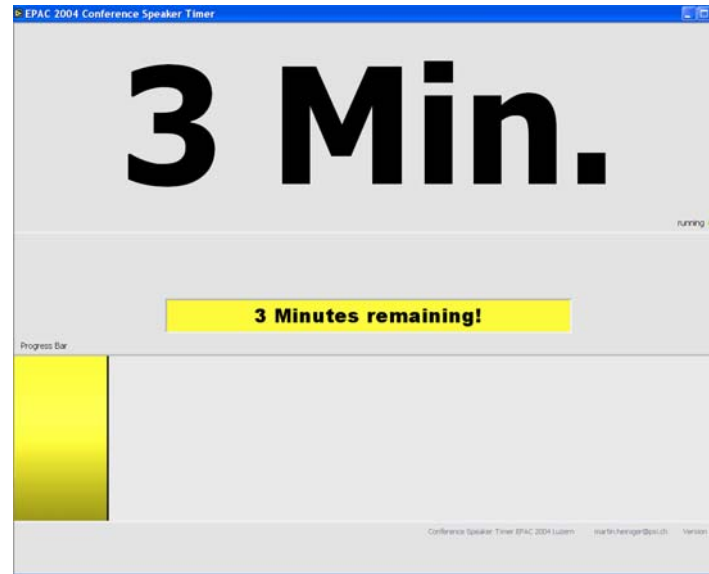

- The Speaker Timer is used to indicate to you how much presentation time is remaining.
- The Scientific Secretary or the Chairman sets up the time and controls the timer with the mouse and keyboard.
- Your screen shows the minutes remaining together with a horizontal bar.

See back side! ↶

❶ Timer on **standby**: Presentation not started.

❸ As requested you will be **warned** ... minutes before the end of your presentation.

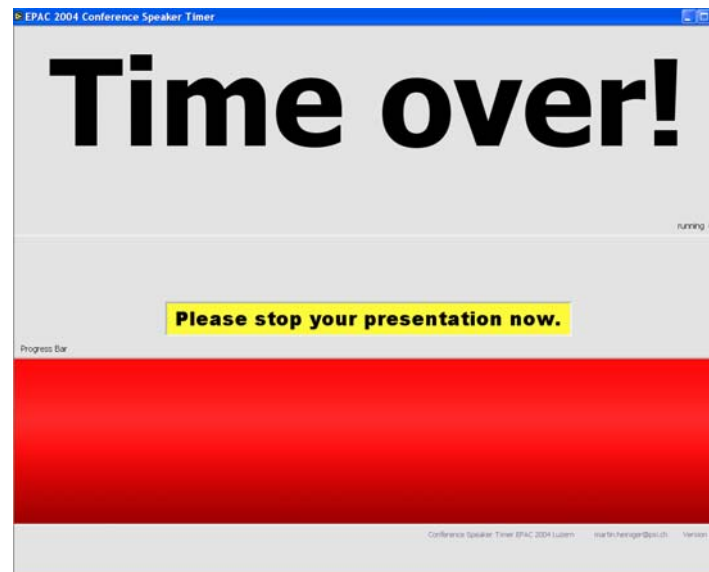

← Warning text appears

← The bar changes to yellow

❷ After the Secretary **starts** the timer it looks like this:

❹ You are requested to **stop** your presentation because there is no time remaining.

← Text appears

← The bar blinks red and yellow
